

CLARITY
Coalition's
Position on The
Deterrent Act

"Defending Education Transparency and Ending Rogue Regimes Engaging in Nefarious Transactions Act"

**ACTION
REQUESTED:**

We urge you to support this Act (H.R.5933/S.3362), whether as a free-standing bill or as part of another bill.

- CLARITY (Champions for Liberty Against the Reality of Islamist Tyranny) is a global coalition founded by Muslims, ex-Muslims, academics, scholars, authors, and activists who stand for peace, democracy, liberty, and secular governance and who are deeply concerned by the continuing threat posed to these values by the actions and demands of Islamists in various places around the world.
- We are appalled by the current eruption of violence, antisemitism, and open support for the terrorist organization Hamas by individuals shouting "Death to America."
- Foreign governments, such as Qatar, and organizations that support Islamism provide a significant source of inspiration and funding for these illegal protests, as well as for the greater threat posed by anti-democratic campus radicalism.
- The Deterrent Act would help to expose and reduce those sources of funding. It represents a vital step in restoring the health of our academic institutions.
- CLARITY Coalition has expertise on the goals, content, and modus operandi of Islamism in the West and elsewhere. We are available at any time to advise Members of Congress.
